ABOUT US

Arsoy Care Centers began providing services in 2011 in Tarsus, Yenice, on an 8,500 m² area with a capacity of 200 people, aiming to provide professional support to individuals with mental and psychological issues. Approved by the Ministry of Family and Social Services, this initial center quickly became an exemplary institution in its field with its expert staff of 120 people. Empowered by this success, a second center with a capacity of 71 people was opened in Mersin, Erdemli Tirtar in 2021. With an experienced staff of 41 people, this facility provides psychological support services in a peaceful living space overlooking the sea.

Today, continuously improving its service quality with 15 years of experience, Arsoy Care Centers continues its journey at its new facility in Mezitli. Built in accordance with the Regulation on Private Care Centers for Individuals with Disabilities, the new center holds a TSE Quality Management System Certificate, BHKS (Care Services Quality Standards), and an Accessibility Certificate, and is regularly inspected by the relevant institutions. Standing out with its location intertwined with nature and a capacity of 90 people, this facility proudly maintains safe, peaceful, and person-centered residential care services for individuals aged 13 and over with psychological issues, as well as those diagnosed with Alzheimer's, Dementia, and Parkinson's.
